Roofing			Project Final		

POST & PROTECT this permit on the Job for the year provided and until all finals are approved. No work shall be covered until Inspected and Passed. No Inspection will be made unless Permit is displayed and approved plans (if applicable) are available to the inspector on the Job. An Annual Facility Maintenance Permit does not mean that a Project is not required to be reviewed and inspected for compliance with the FBC, FFPC, and SREF. It only means that projects that fall under this category are not required to apply for a permit individually. Use back of Permit as needed for additional projects. FOR INSPECTION REQUESTS CALL BCC FIRM 48 HOURS IN ADVANCE. Copy back of permit card if needed for additional projects.
